

Andrey Lunevich

iOS / macOS / Android projects

Snapcart

iOS application

Application that can give you real cashback, only from snapping grocery receipt.

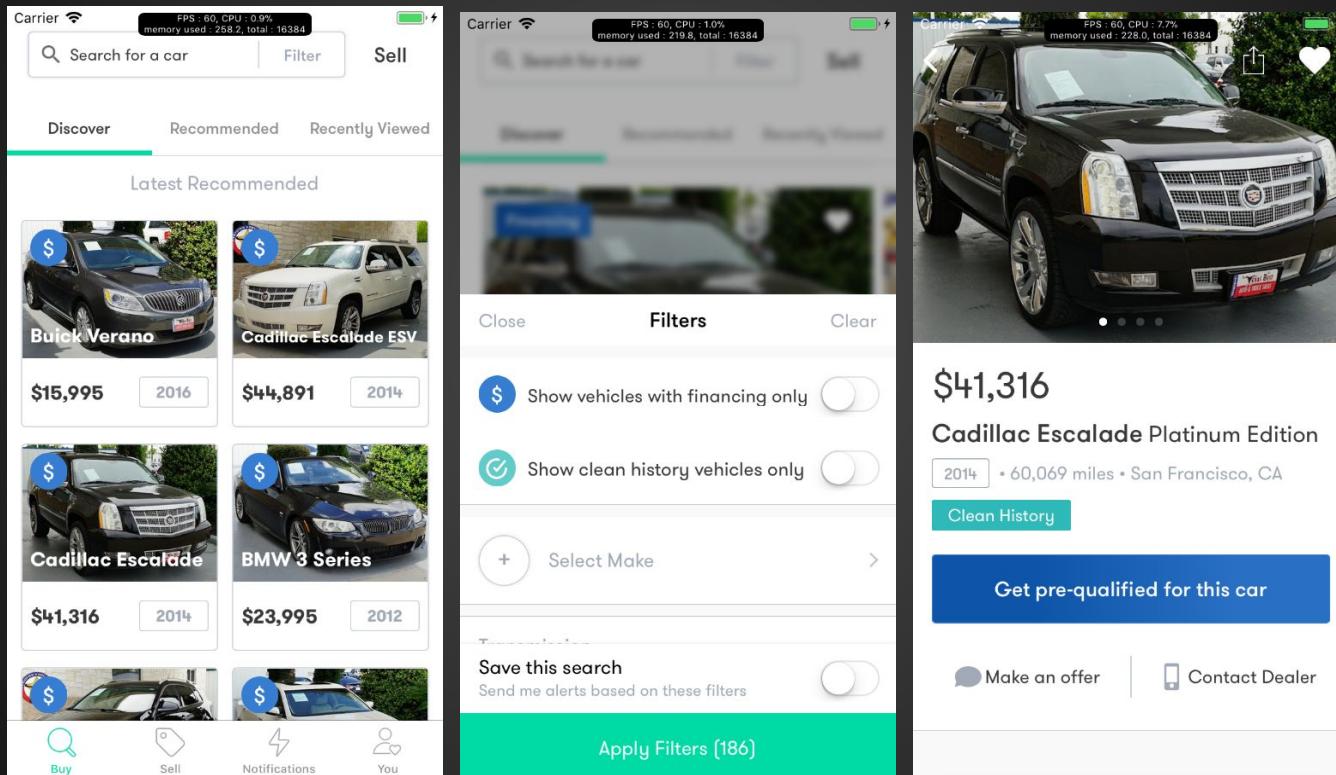

Used technologies: Swift, REST (JSON), SocialAuth (Facebook), Crashlytics, Testing (Quick, Nimble), CI/CD (TeamCity + Fastlane), Pushwoosh, Zendesk

App Store: <https://itunes.apple.com/us/app/instamotor-buy-sell-cars/id929373823?mt=8>

Instamotor

iOS application

Application for sell and buy used cars.

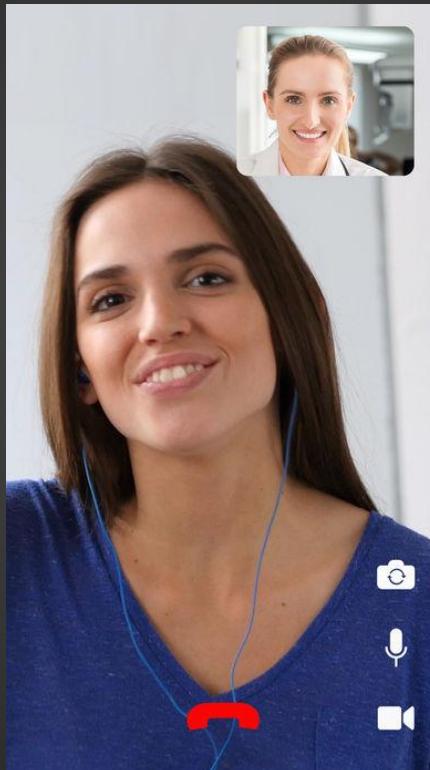

Used technologies: Swift, RxSwift, REST (JSON), SocialAuth (Facebook, Google), Amplitude, GoogleAnalytics, Crashlytics, Testing (Quick, Nimble), Fastlane

App Store: <https://itunes.apple.com/us/app/instamotor-buy-sell-cars/id929373823?mt=8>

TruClinic Virtual Health

iOS application

Application enables video communications with healthcare provider (doctor). Create independent framework for video calls to include in another applications.

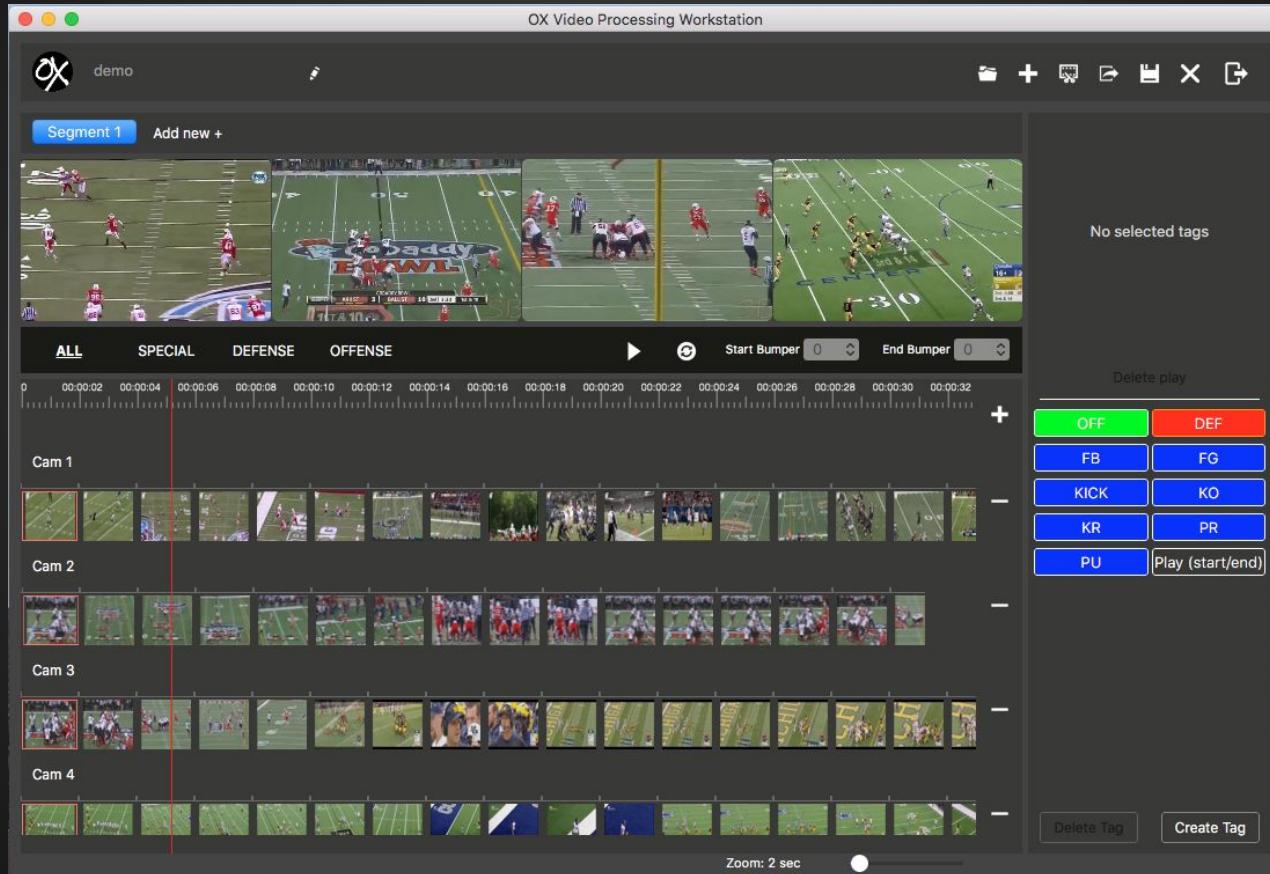

Used technologies: Swift, OpenTok, Socket.IO

App Store: <https://itunes.apple.com/us/app/truclinic-virtual-health/id1234068517?mt=8>

Football Trainer (macOS)

macOS application

Football training system which provides video tagging, transformation and playback capabilities.

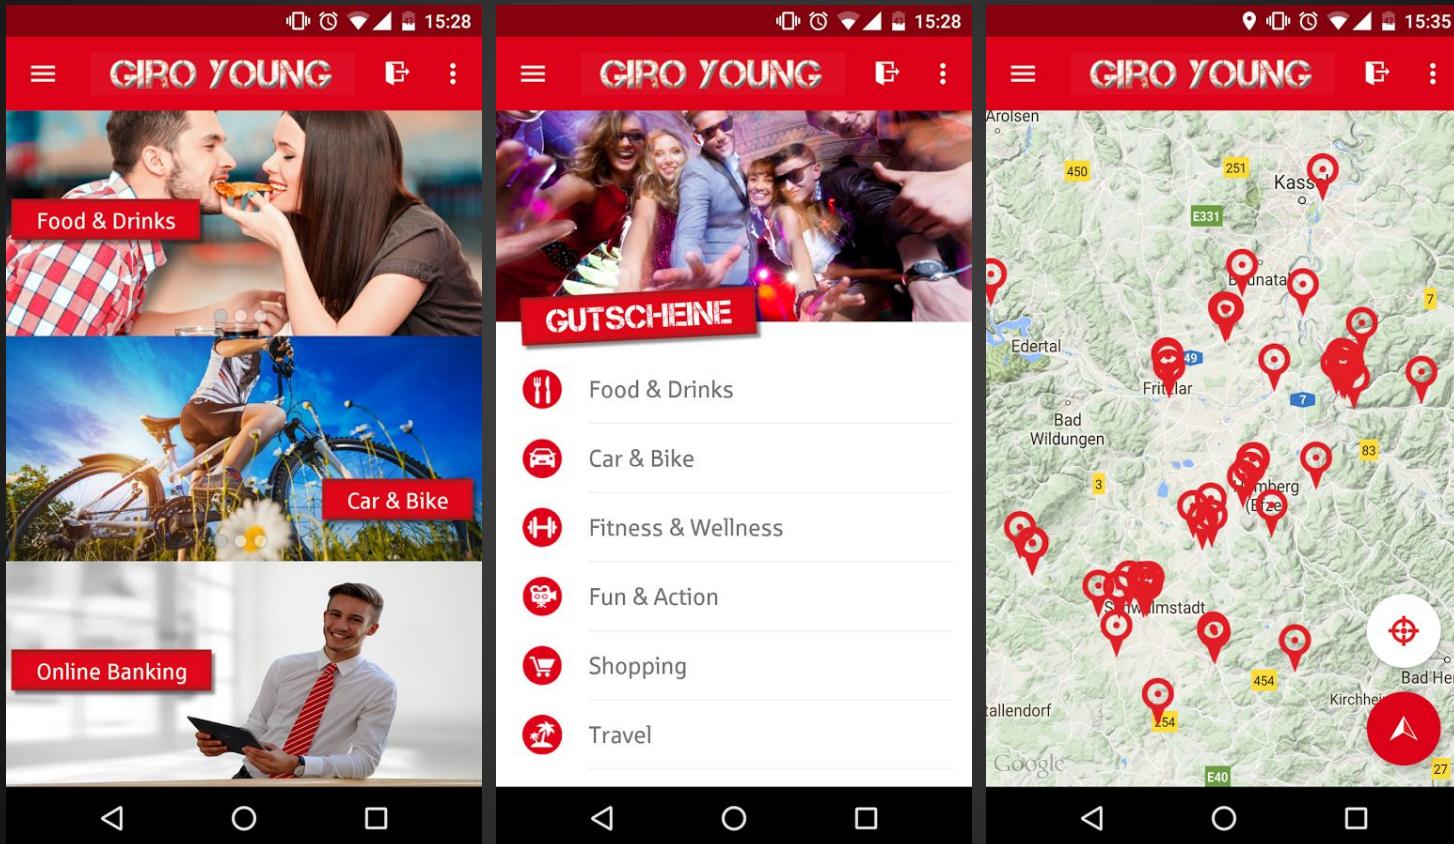

Used technologies: Swift, AVFoundation, CoreData (Magical Record), Alamofire (REST), Crashlytics.

Enterprise application. Not for publishing.

Giro Young (Android)

Android application

Application provide coupons for gyms, cinemas

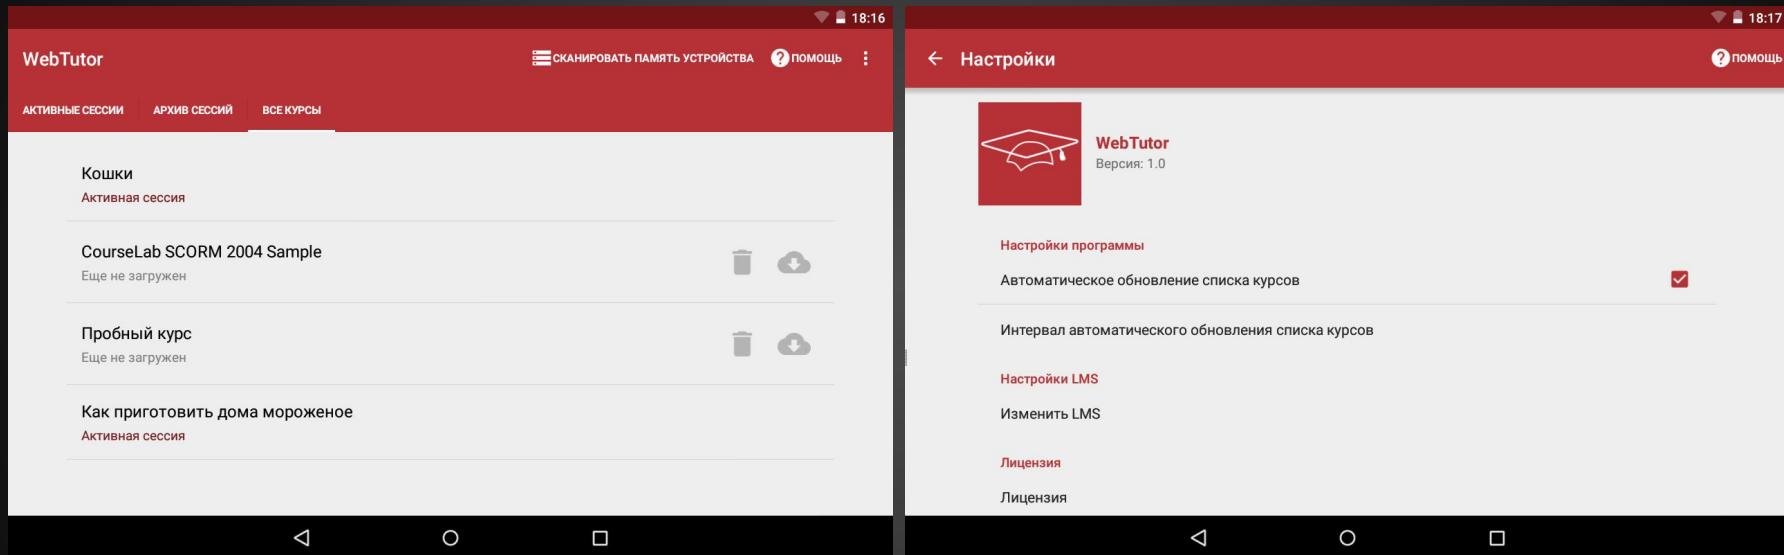

Used technologies: Fragments API, Retrofit (REST), JSON (GSON), Google Maps API v2, SQLite, Crashlytics

Google Play: <https://play.google.com/store/apps/details?id=com.apollon.sparkasse>

WebTutor (Android)

Android application

Application allows you to take e-learning courses that meet the standards SCORM 1.2, SCORM 2004 and AICC.

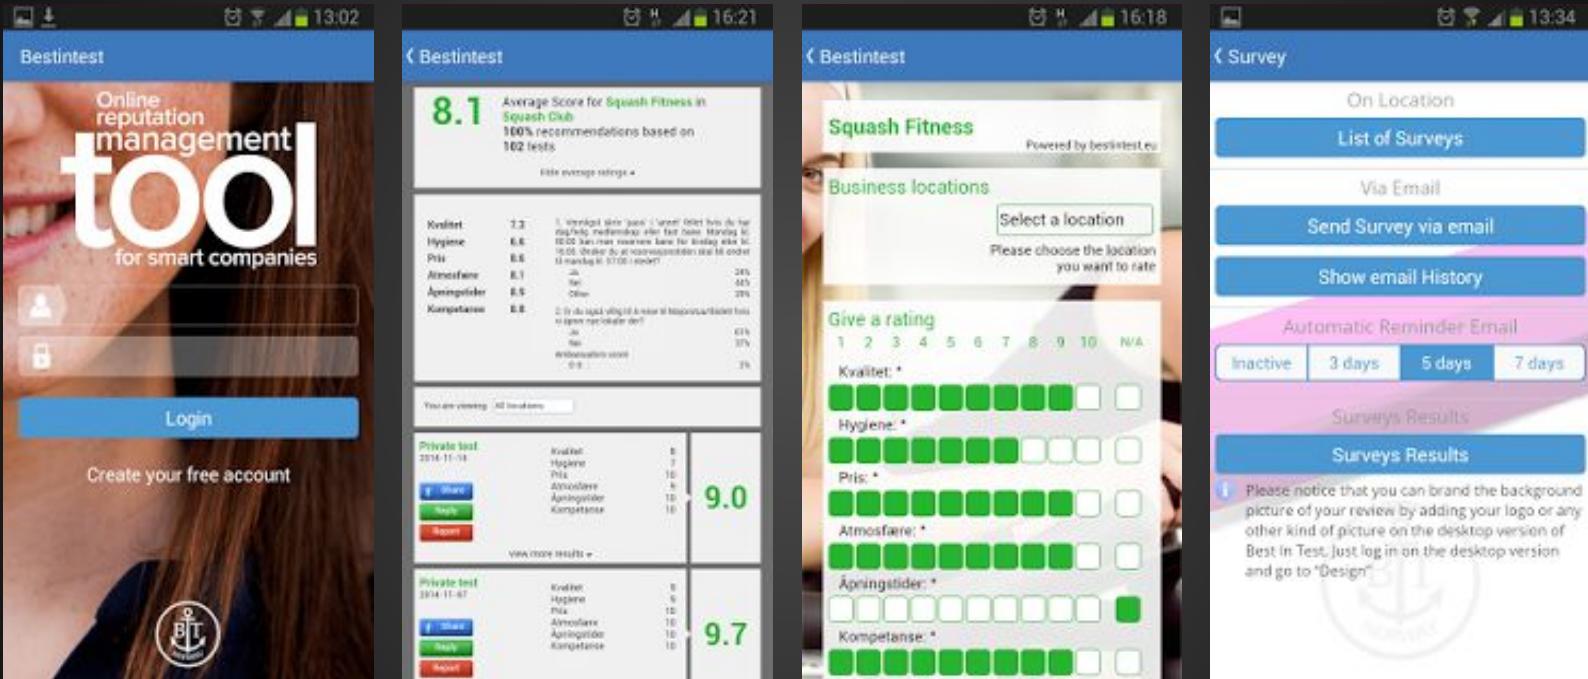

Used technologies: Fragments API, Retrofit (REST), JSON (GSON), Crashlytics, Scorm and AICC player.

Google Play: <https://play.google.com/store/apps/details?id=ru.webtutor.android>

Best in Test (iOS / Android)

iOS / Android application

Application makes it possible to receive lots of reviews in a very short time, keep control on them and get an excellent online reputation.

iOS:

Used technologies: CoreData (MagicalRecord), REST services (JSON)

App Store: <https://itunes.apple.com/us/app/best-in-test/id975121567?mt=8>

Android:

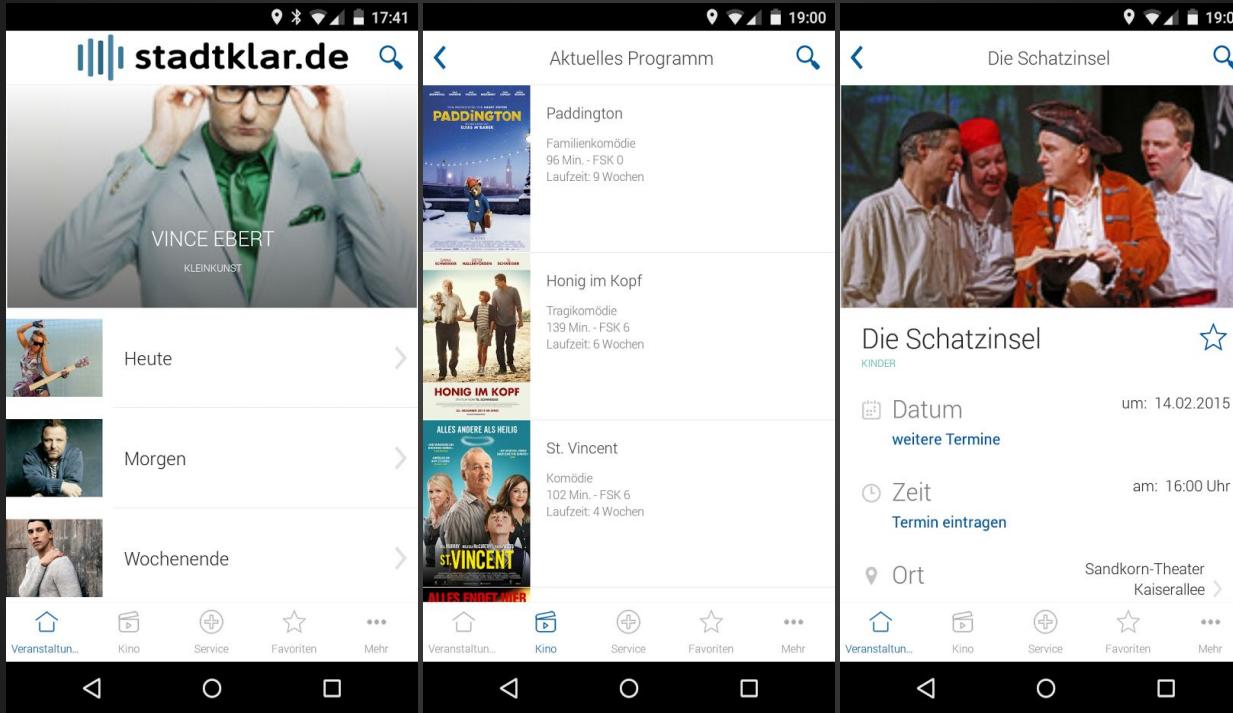

Used technologies: Fragments API, Retrofit (REST), JSON (GSON).

Google Play: <https://play.google.com/store/apps/details?id=no.bit.intl>

Stadtklar (iOS / Android)

iOS / Android application

Application to find a wide variety of events, concerts, events, and movies in the region Pforzheim and beyond.

iOS:

Used technologies: CoreData (MagicalRecord), MapKit, AFNetworking, RestKit, CoreLocation.

App Store: <https://itunes.apple.com/de/app/stadtklar/id957344397?mt=8>

Android:

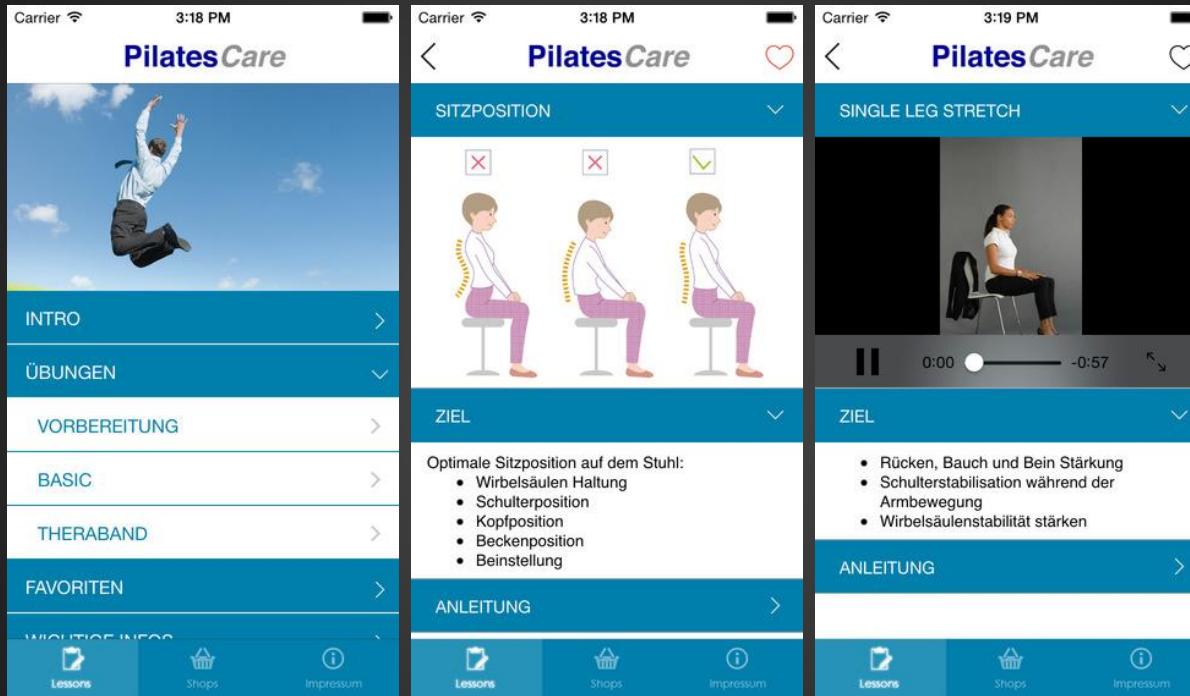

Used technologies: Fragments API, GoogleMaps API v2, SQLite (SugarORM), Retrofit (REST), JSON (GSON), Async image loading.

Google Play: <https://play.google.com/store/apps/details?id=de.pznews.events>

PilatesCare

iOS / Android application

Application to improve the upright posture, especially when seated and to strengthen the deep muscles of the trunk (back and abdominal muscles) intensive.

iOS:

Used technologies: CoreData, CoreGraphics, MediaPlayer

App Store: <https://itunes.apple.com/ca/app/pilatescare/id942291240?mt=8>

Android:

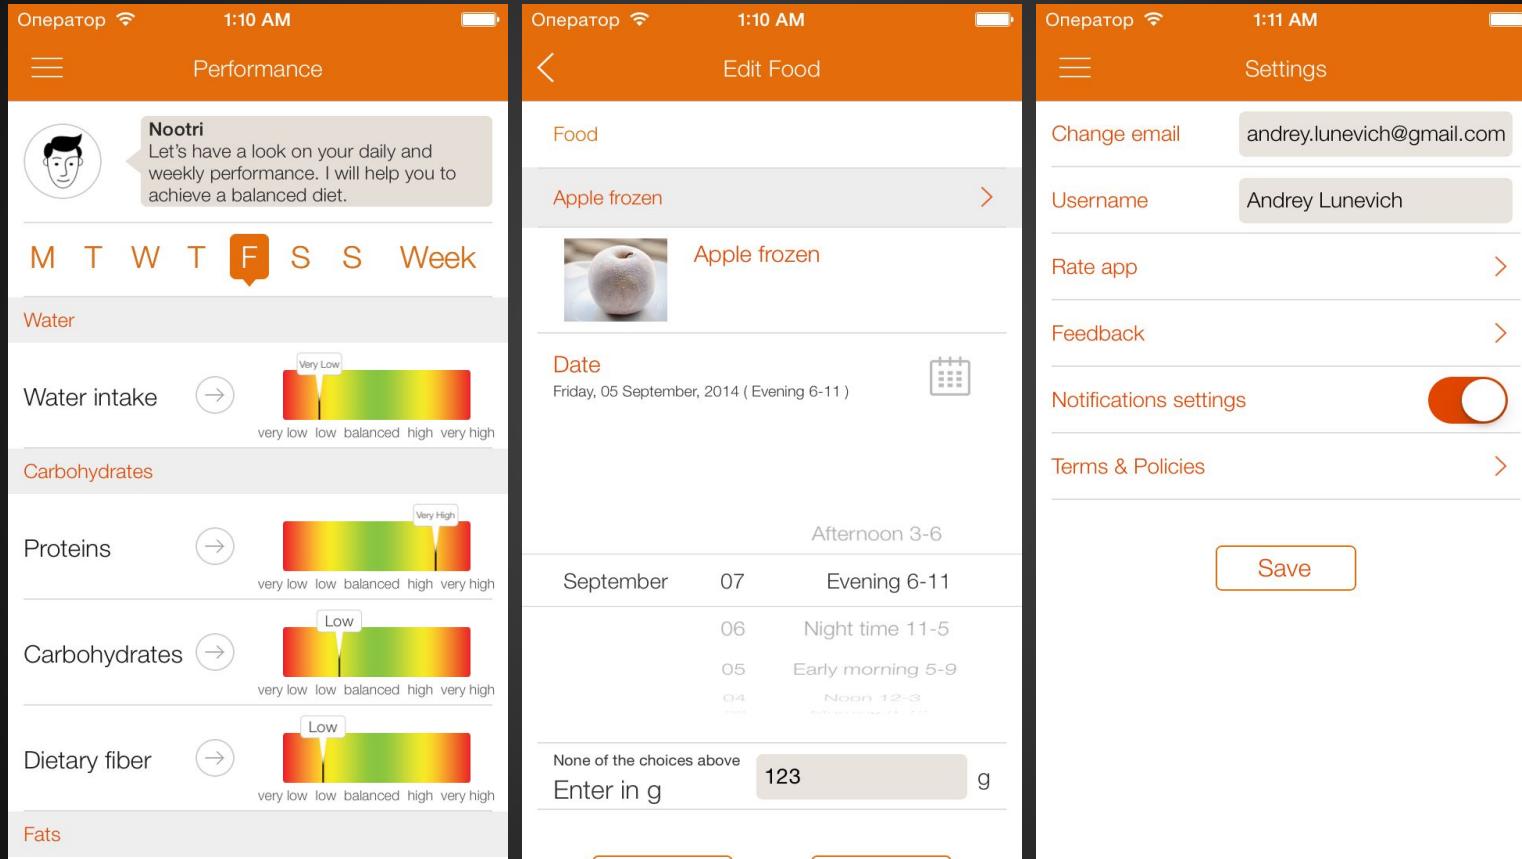

Used technologies: Fragments API, SQLite (ActiveAndroid), JSON (GSON).

Google Play: <https://play.google.com/store/apps/details?id=com.pc.pilatescare&hl=en>

Nootri The Nutrition Manager

iPhone application

Application calculates your ideal nutrient values based on your personal profile and compares it to your daily food.

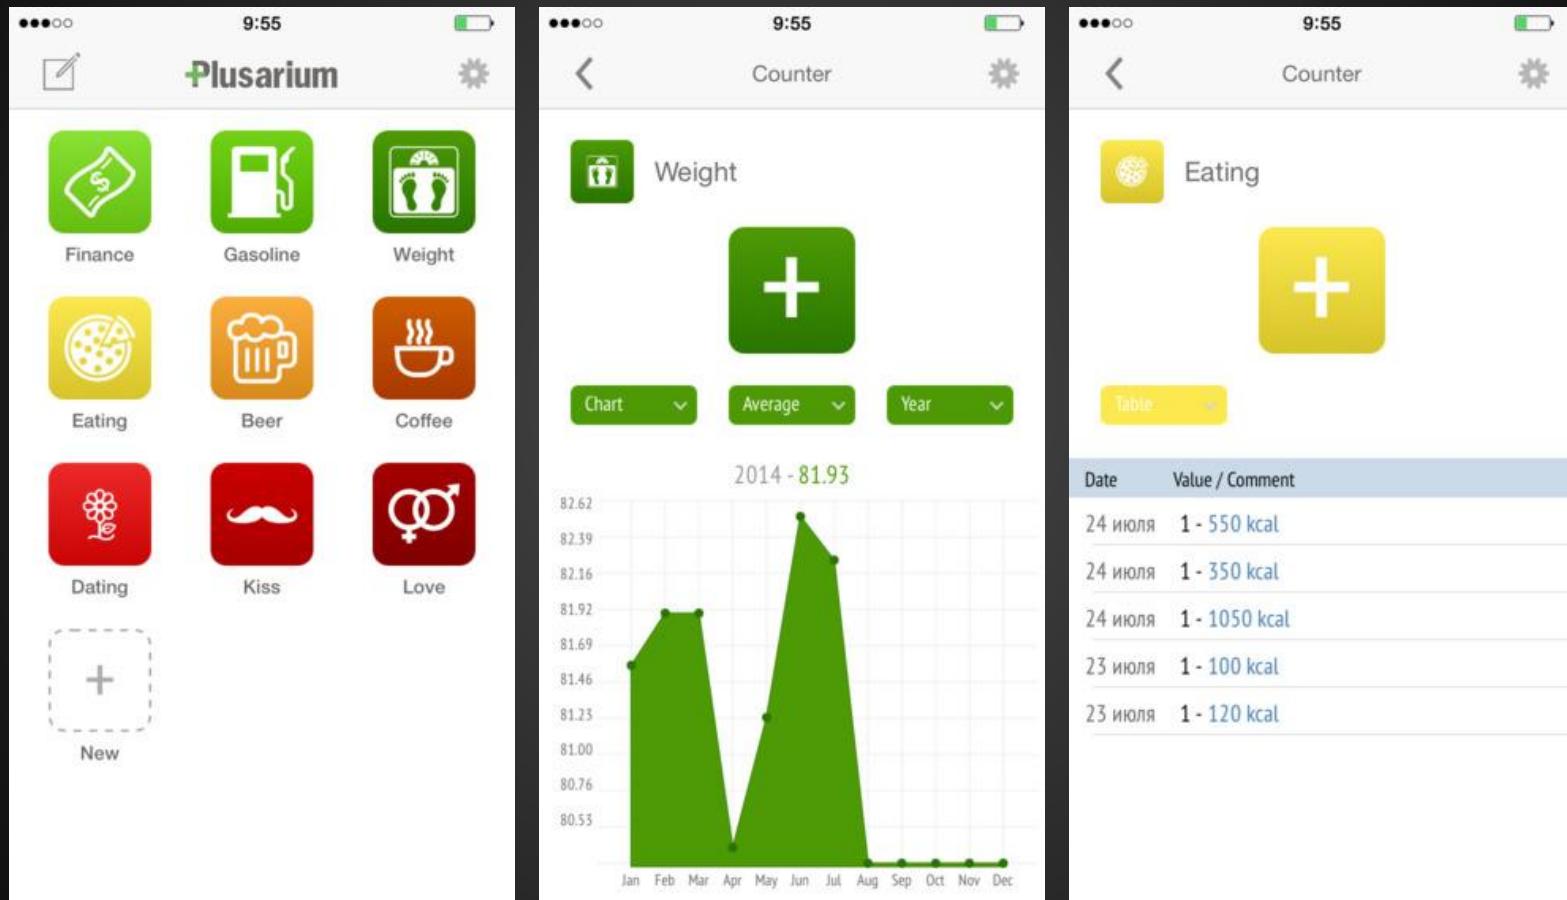

Used technologies: CoreData, CoreGraphics, REST services (JSON).

App Store: <https://itunes.apple.com/US/app/id912109727?mt=8>

Plusarium

iPhone application

Application to make your life balanced. Create counters and watch progress.

Used technologies: CoreData, CoreGraphics, Flurry, Crittercism, REST services (JSON).

App Store: <https://itunes.apple.com/us/app/plusarium/id901280642?l=ru&ls=1&mt=8>

Interest Calc

iPhone application

Calculator to easily calculate the maturity of Fixed Deposits and etc. on personal, business and home loans

The image displays two side-by-side screenshots of the 'Interest Calc' iPhone application. Both screens show a dark-themed interface with white text and light-colored input fields.

 - Rate of Interest (in %): Placeholder text 'Rate of Interest in percentage'.
 - Period (in months): Placeholder text 'Period in months'.
- Section: Interest compounded
 - Monthly
 - Quarterly
 - Half Yearly
 - Yearly
- Bottom button: Calculate Maturity Amount (green button).

Screenshot 2: Equated Monthly Instalments

- Top status bar: Оператор (Operator), 9:28 PM, battery icon.
- Back button and title: Back Equated Monthly Instalments.
- Input fields:
 - Loan Amount: Placeholder text 'Loan Amount'.
 - Rate of Interest (in %): Placeholder text 'Rate of Interest in percentage'.
 - Period (in months): Placeholder text 'Period in months'.
- Bottom button: Calculate EMI (green button).

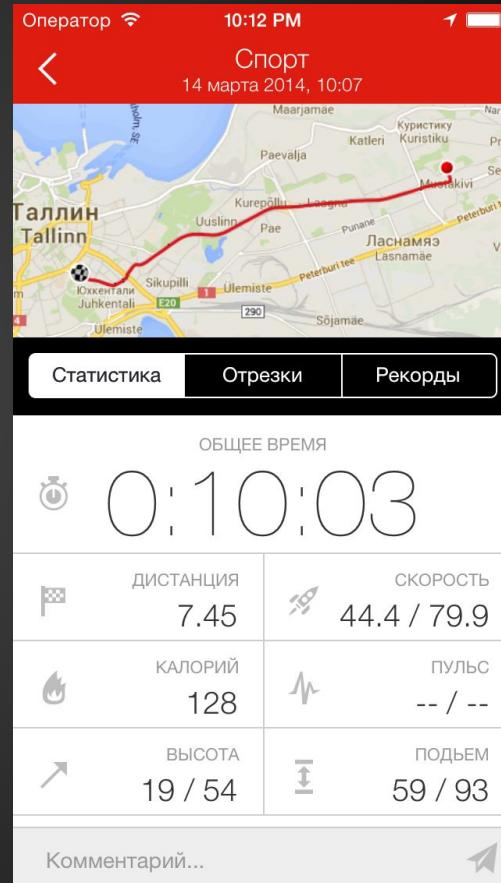

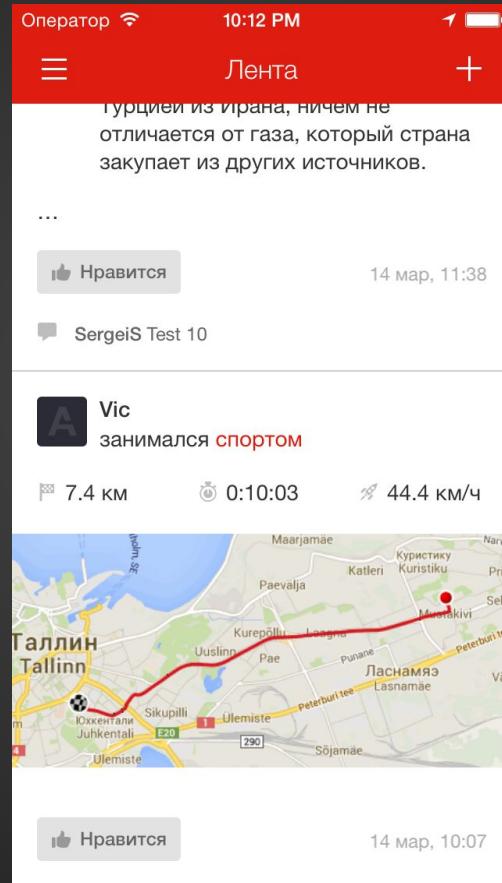

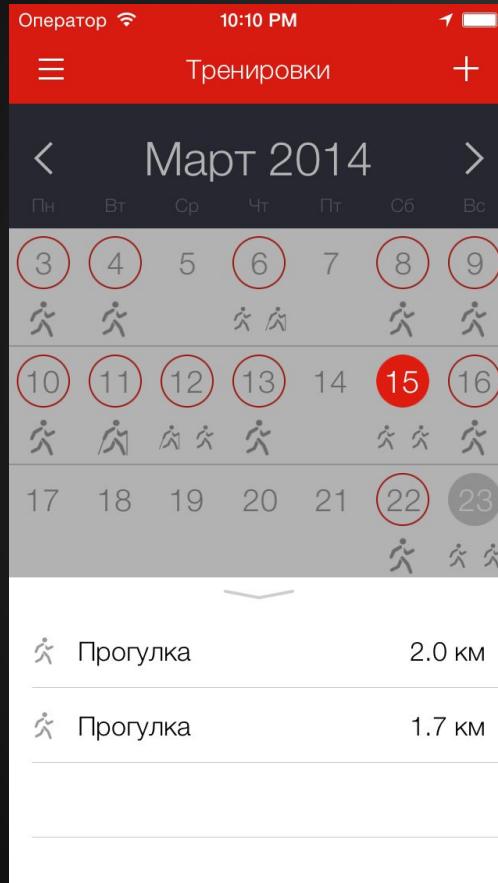

Used technologies:

App Store: <https://itunes.apple.com/us/app/interest-calc/id874809532?ls=1&mt=8>

Aerobia

iPhone application

Sports GPS-tracker which helps to trace and analyze workouts.

Used technologies: CoreData, MapKit, CoreGraphics, REST services (JSON).

App Store: <https://itunes.apple.com/us/app/aerobia/id566375588?mt=8>

Avtoshkola

iPad application, single development

Application for learning traffic rules, contains comments, traffic signs and traffic police exam.

Общие положения. Обязанности водителей, пешеходов и пассажиров

7.3. При отсутствии или неисправности аварийной сигнализации на буксируемом механическом транспортном средстве на его задней части должен быть закреплен знак аварийной остановки.

Современная выдвижная остановка в зеркальном месте (из-за этого знака «Остановка запрещена»), но отсутствует аварийная сигнализация и не установлен знак аварийной остановки. Следовательно, водитель нарушает Правила

БИЛЕТ № 1

1 Да.
3 Нет.

Подсказка

Дорожный знак 1.1.1. «Правый поворот» является предупреждающим знаком и информирует водителя о наличии загородления дороги малого радиуса, где ограничена возможность встречного движения. Сигнал поворота водитель обязан подавать в случае начала движения, поворота либо разворота, перед перестроением и остановкой транспортного средства (п. 8.1 ПДД РФ). В данной ситуации вам не нужно подавать сигнал поворота, а следует проявить внимание для безопасного проезда опасного участка дороги.

ПРОГРАММА АВТОШКОЛЫ

ПДД

0 из 56

0 из 99

1 Общие положения. Обязанности водителей, пешеходов и пассажиров
2 Дорожные знаки

0 из 231

0 из 33

4 Порядок движения, Остановка и стоянка
5 Регулирование дорожного движения
6 Провод перекрестков

Теоретический курс ПДД мы разделили на 11 тем, учитывая требования официальной «Примерной программы подготовки водителей транспортных средств категории «В», которой пользуются все российские автошколы. Эти темы включают все официальные тексты Правил дорожного движения в том порядке, в котором они изучаются в автошколах.

Кроме того, в приложении вы найдете подробные комментарии и поясняющие иллюстрации к ПДД. В конце каждой из тем мы также предлагаем попрактиковаться в решении тематических экзаменационных задач, которые помогут закрепить полученные знания.

К официальному изложению ПДД (без каких-либо сторонних пояснений, иллюстраций и т. д.), вы можете обратиться, нажав на надпись в правом верхнем углу экрана главного меню.

Удачи вам с экзаменом!

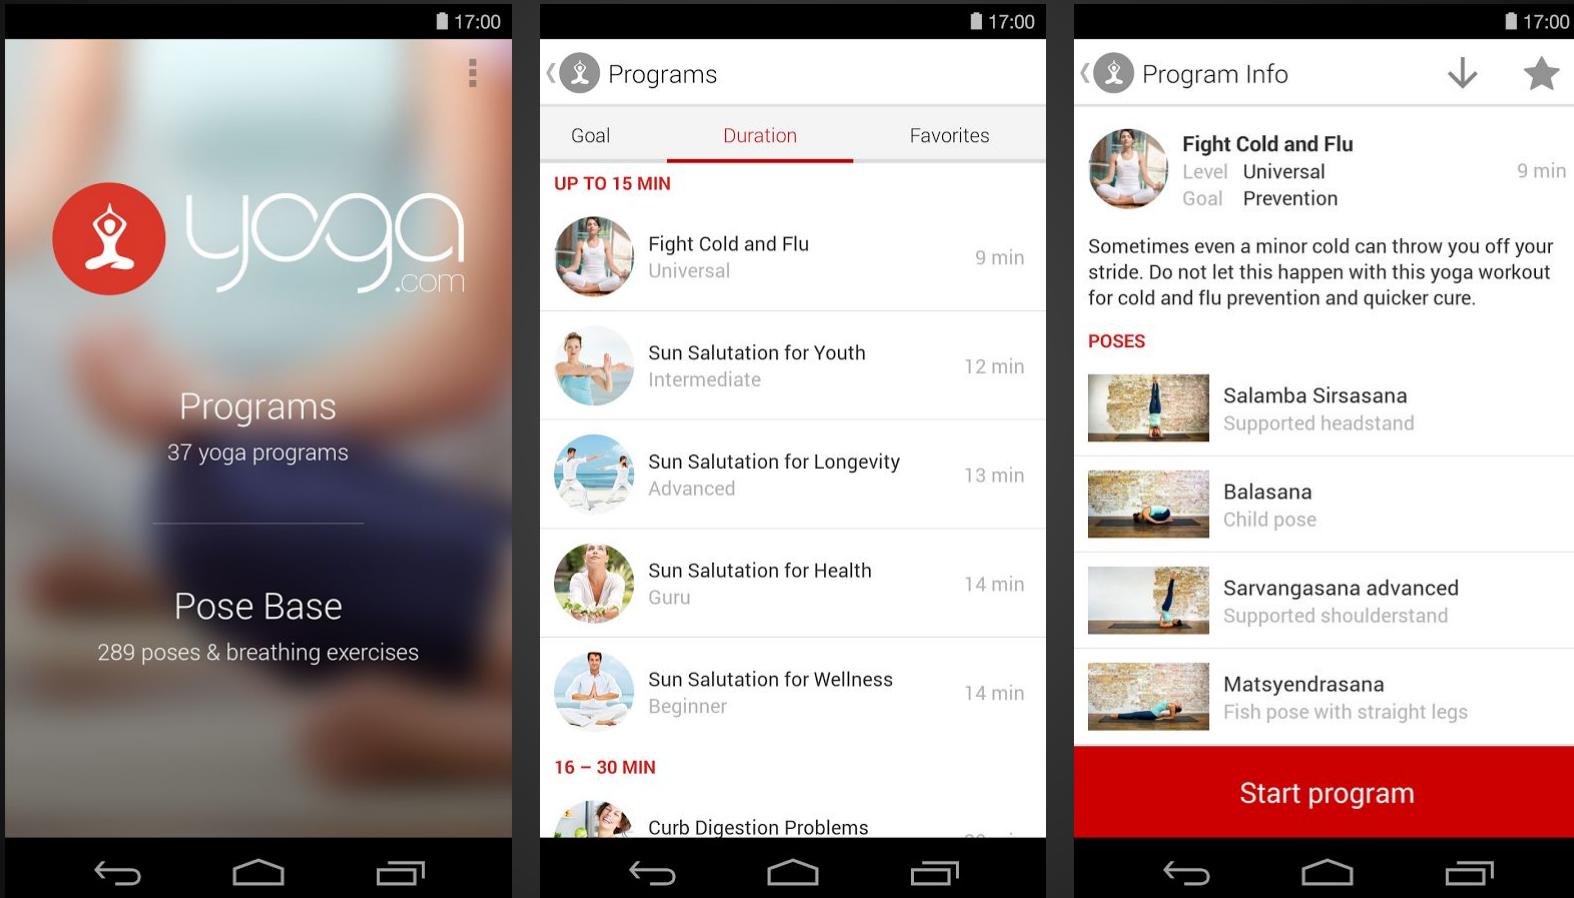

Used technologies: CoreData, CoreGraphics

App Store: <https://itunes.apple.com/app/apple-store/id985675970?mt=8>

Yoga (Android)

Android application

Application for doing yoga exercises with poses by skill level, fitness goal or by type.

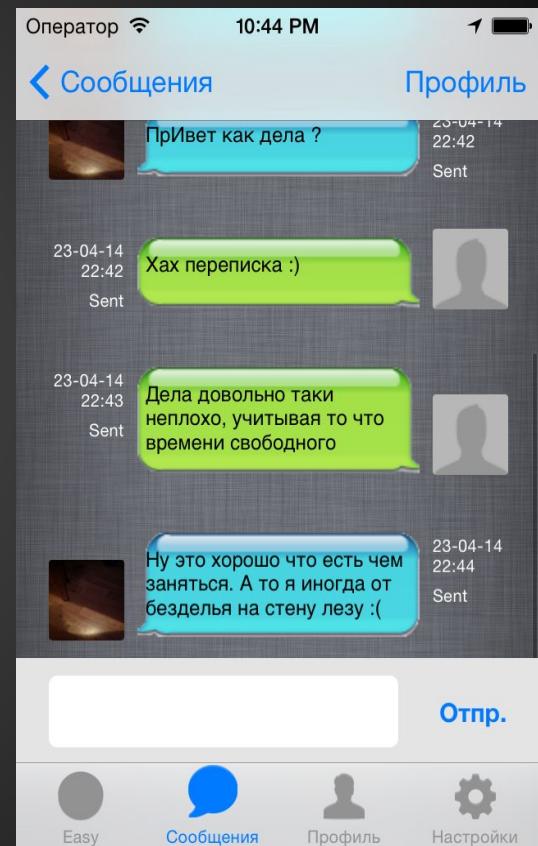

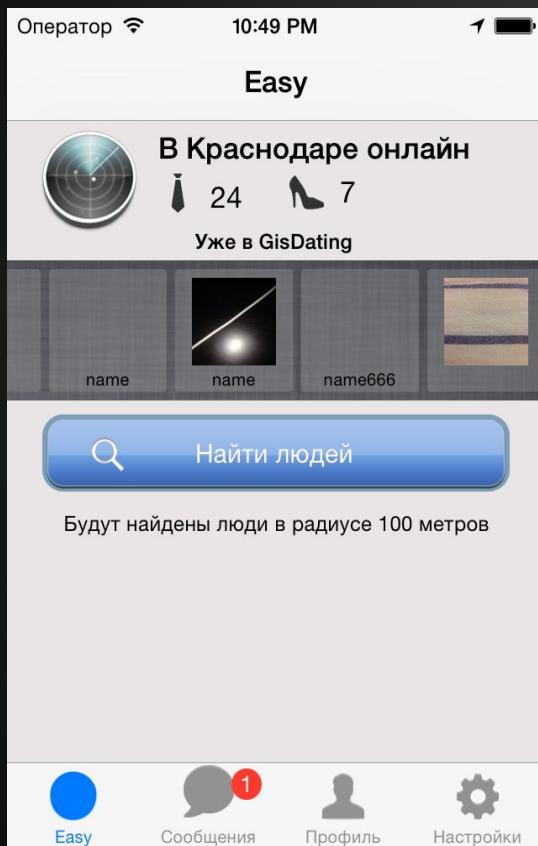

Used technologies: SQLite, Flurry, XML, Google Analytics.

Google Play: <https://play.google.com/store/apps/details?id=com.yoga.pro.google.paid>

Easy

iPhone application

Team development

Used technologies: CoreData, SocketIO, REST services (JSON).

App Store: <https://itunes.apple.com/us/app/easy/id874395902?ls=1&mt=8>

Anesthesia

iPad application

Team development (NDA signed)

Application for anesthesiologists to reduce "paper work".

Development was stopped by customer.

The image displays four screenshots of an iPad application for anesthesia management:

- Screenshot 1 (Patient Management):** Shows a list of recent cases. A patient card for "Polich Andrew Sergeev" is open, displaying basic info (Age: 20, Gender: Male) and procedure details (Procedure Name: hbjbjnj, Status: open). A "Patient Info Preview" section shows a profile picture and detailed information: Name: Polich Andrew Sergeev, Age: 20 Male, Date of Birth: 1993-11-02, Account #: q, Medical Record #: q, Procedure Name: hbjbjnj. Buttons for PreOp, IntraOp, and PostOp are visible.
- Screenshot 2 (Physiological Status):** Displays a "Physiological Status" form with fields for Height (inch/cm), Weight (lbs/kg), and BMI. A date picker shows current dates from September 2011 to January 2015. Below it is an "NPO date/time" field and an "NPO comments" text area.
- Screenshot 3 (Monitoring):** A complex interface for monitoring vital signs. It includes a grid for heart rate (RR), blood pressure (BP), EKG, and other parameters. A central graph plots blood pressure over time. A "Labs" tab shows current and start times. A "Events & Timers" section is also present.
- Screenshot 4 (Medications):** A "Medications" screen showing a grid of drugs and their dosages. Drugs listed include Fentanyl, Morphine, Rocuronium, Propofol, and others. Dosage amounts like 125.00, 3.00, and 30.00 are shown. A "Drugs" tab lists all available medications.

Enterprise application. Not for publishing.

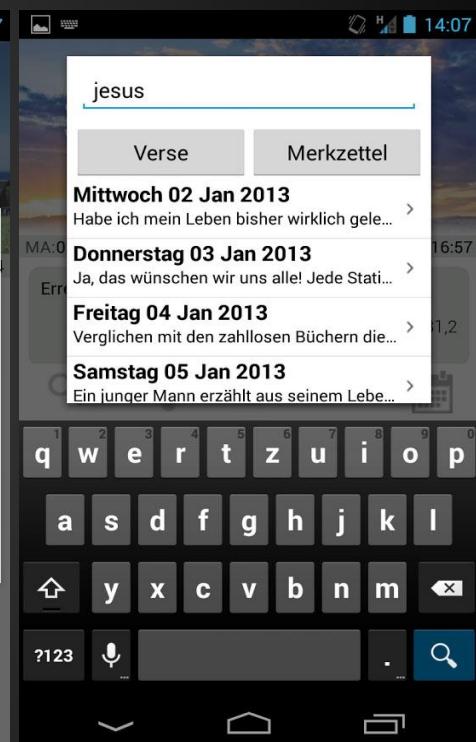

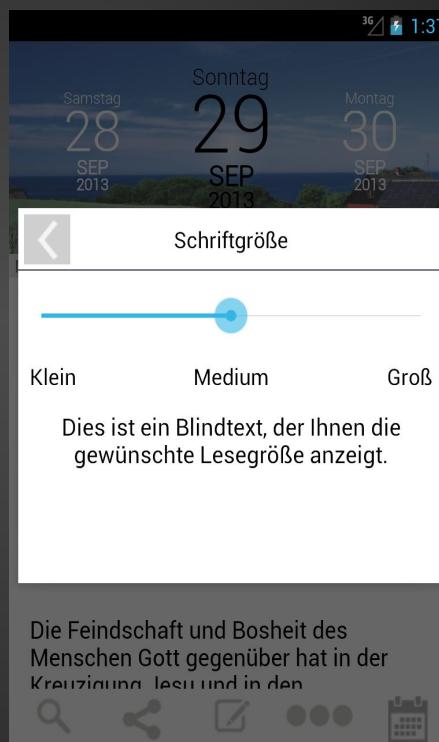

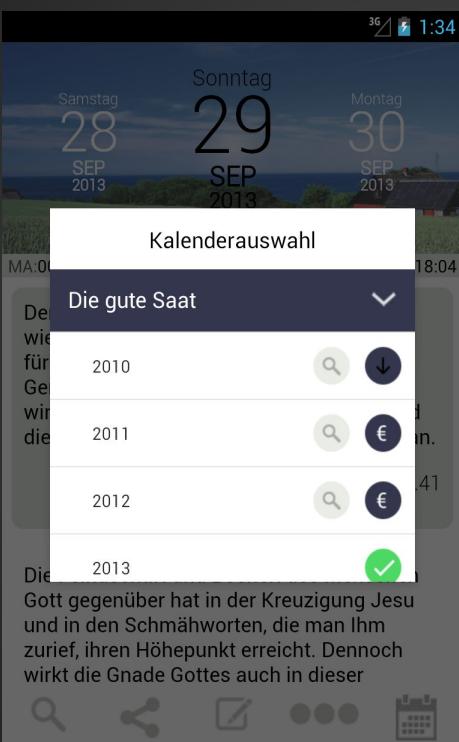

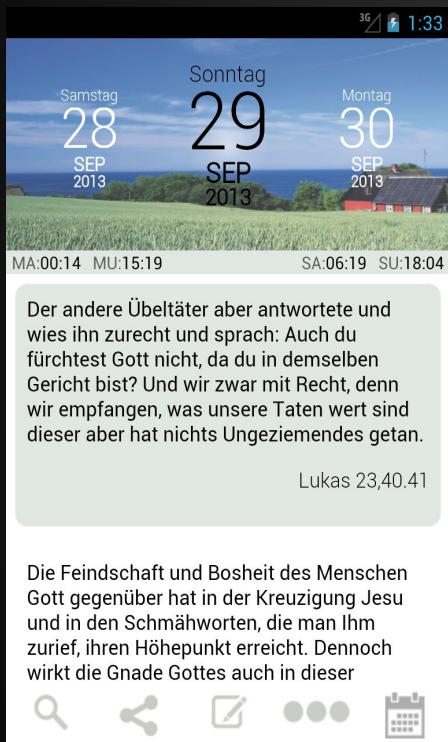

Used technologies: CoreData, AddressBook framework, MessageUI framework, CoreGraphics, AWSiOSSDK (S3 sharing).

CSV Kalender (Android)

Android application

Single development

Application for reading bible verse and creating bookmarks.

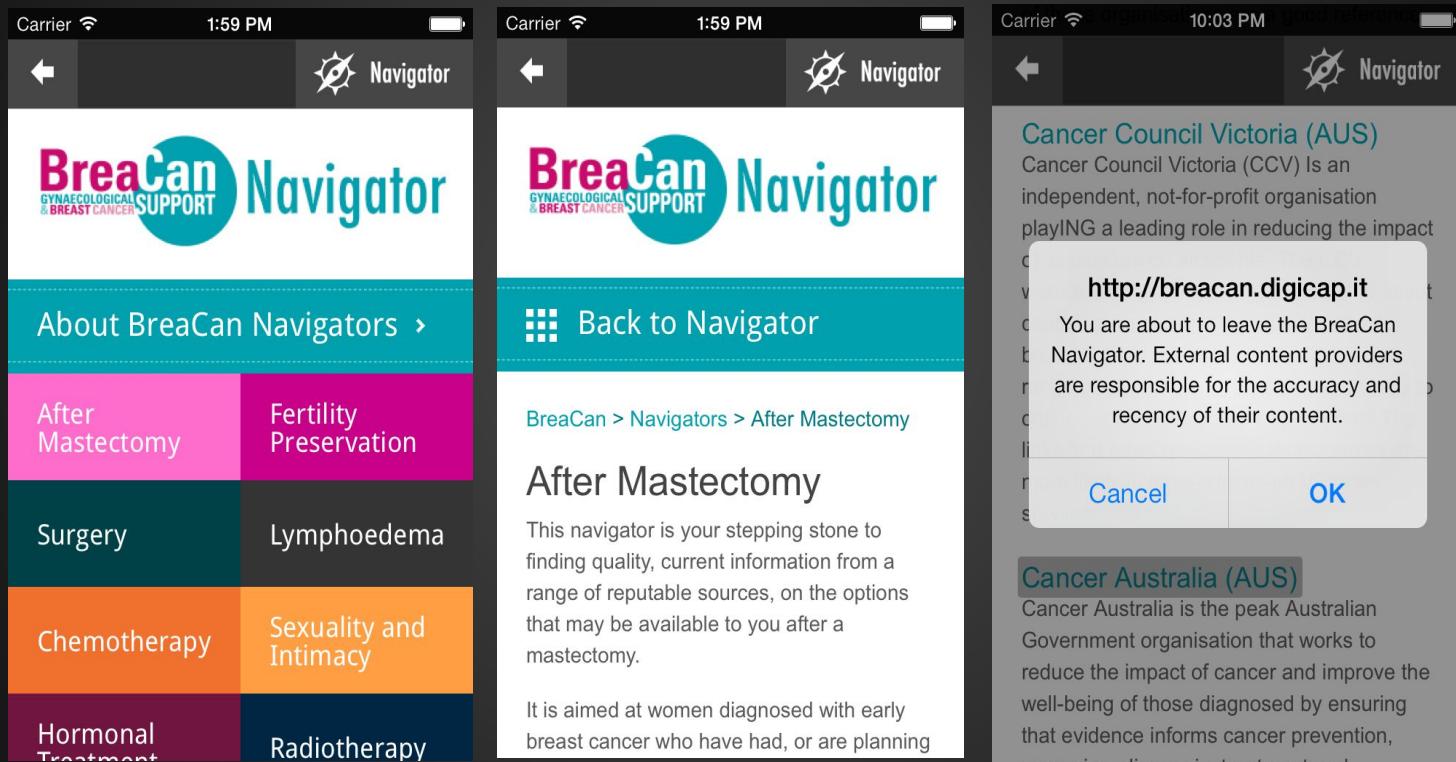

Used technologies: ActiveAndroid (SQLite), In-App Billing, WakeFullService, Facebook SDK, Google+ API, Google Play: <https://play.google.com/store/apps/details?id=com.azati.csvcalender>

BreaCan Navigators

iOS application

Single development

Application for loading web site page and controlling transitions between pages

Used technologies:

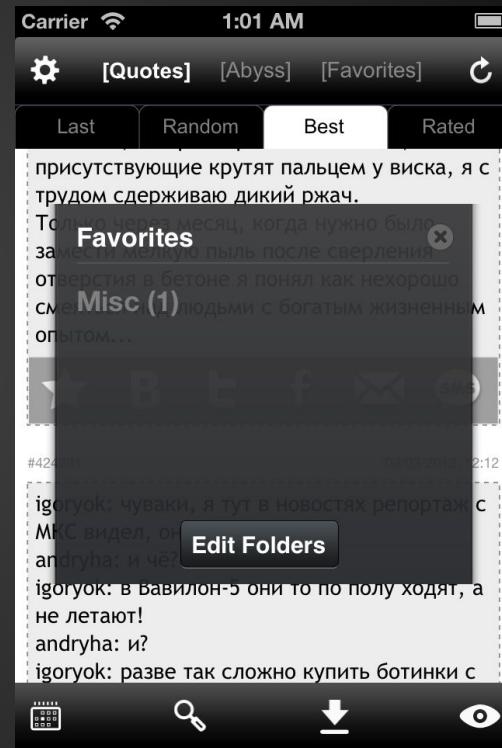

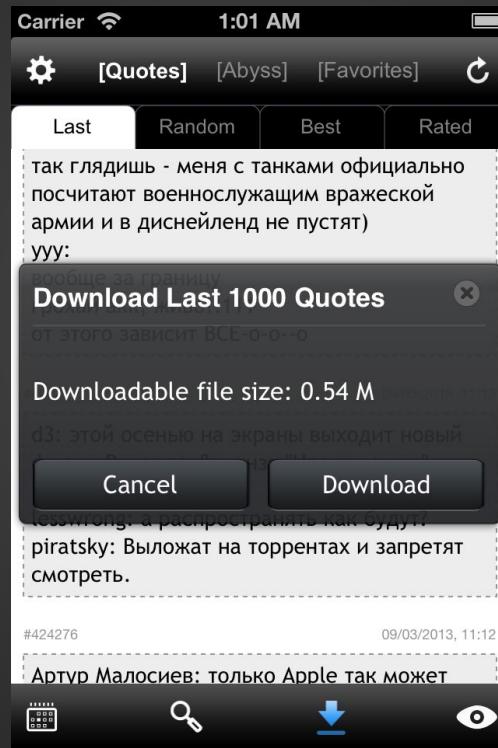

App Store: <https://itunes.apple.com/us/app/breacan-navigators/id715478052?l=ru&ls=1&mt=8>

Bash Reader (Rework)

iPhone application

Team development

Application for reading content of bash.org site.

Used technologies: SQLite, CoreData, AFNetworking, JSONKit, XML type of service data.

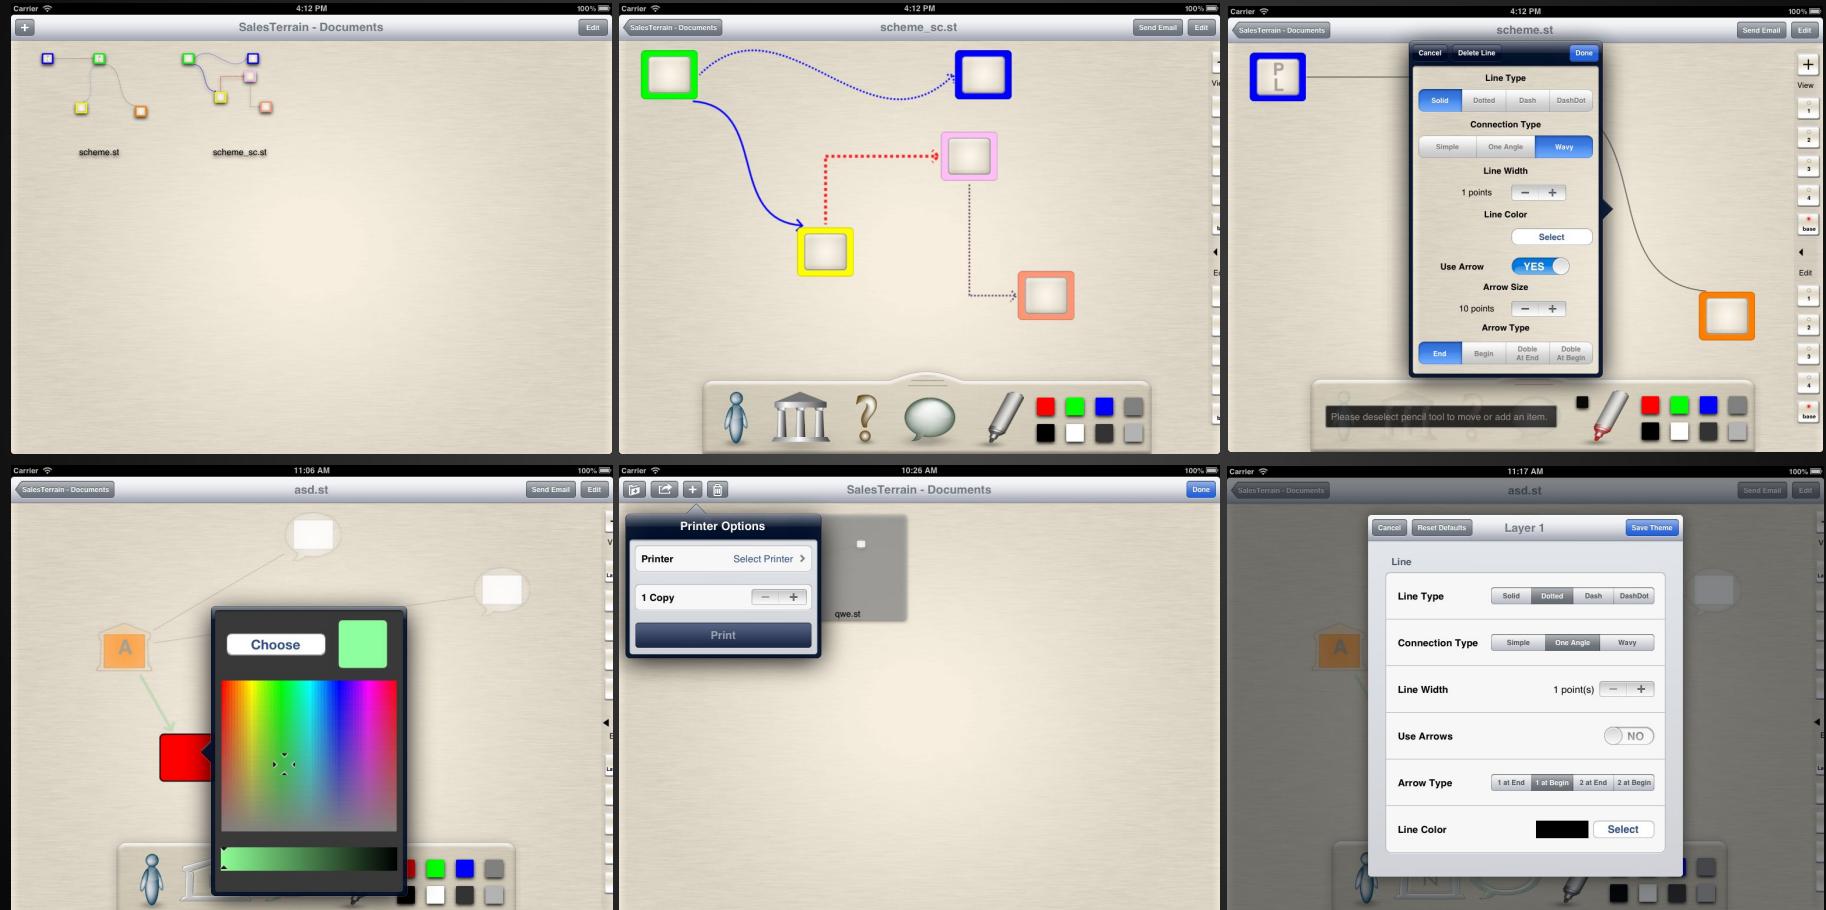

App Store: <https://itunes.apple.com/us/app/bash-reader/id297200401?mt=8>

SalesTerrain

iPad application

Team development (NDA signed)

Application - Organisational Mapping Tool.

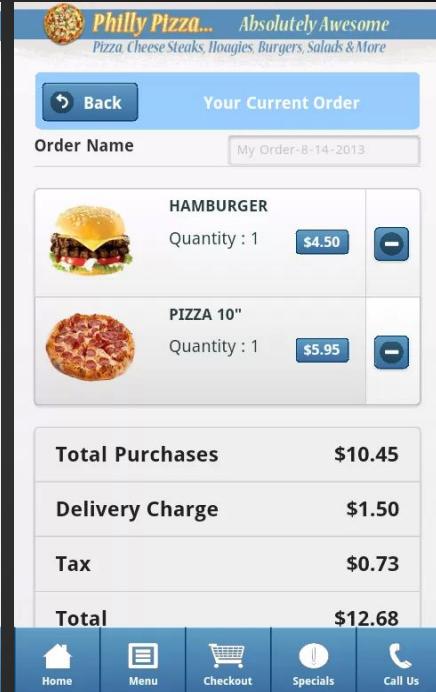

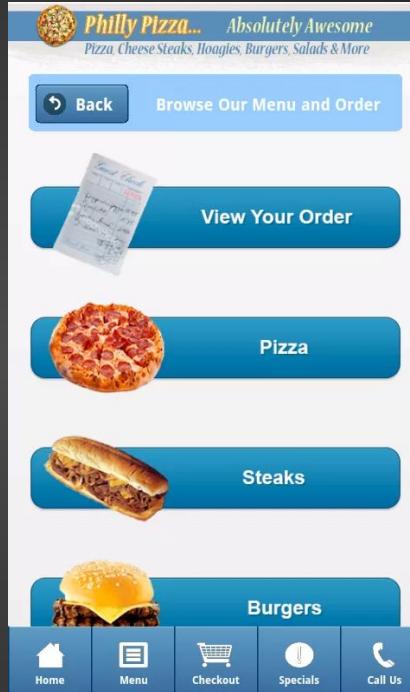

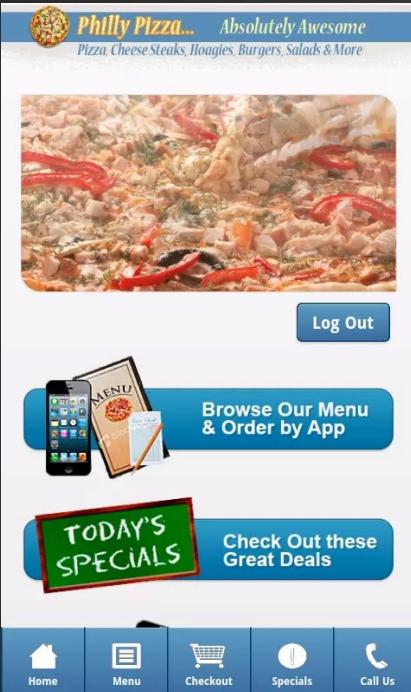

Used technologies: CoreGraphics, AddressBook, DropboxSDK, iCloud sharing.

Philly Pizza (iOS / Android)

iOS / Android application (cross platform application)

Team development

Mobile applications for restaurants.

Used technologies: Phonegap (Cordova), JQM, CSS3, HTML5.

Google Play: <https://play.google.com/store/apps/details?id=com.myrestaurantmobile.phillypizza>

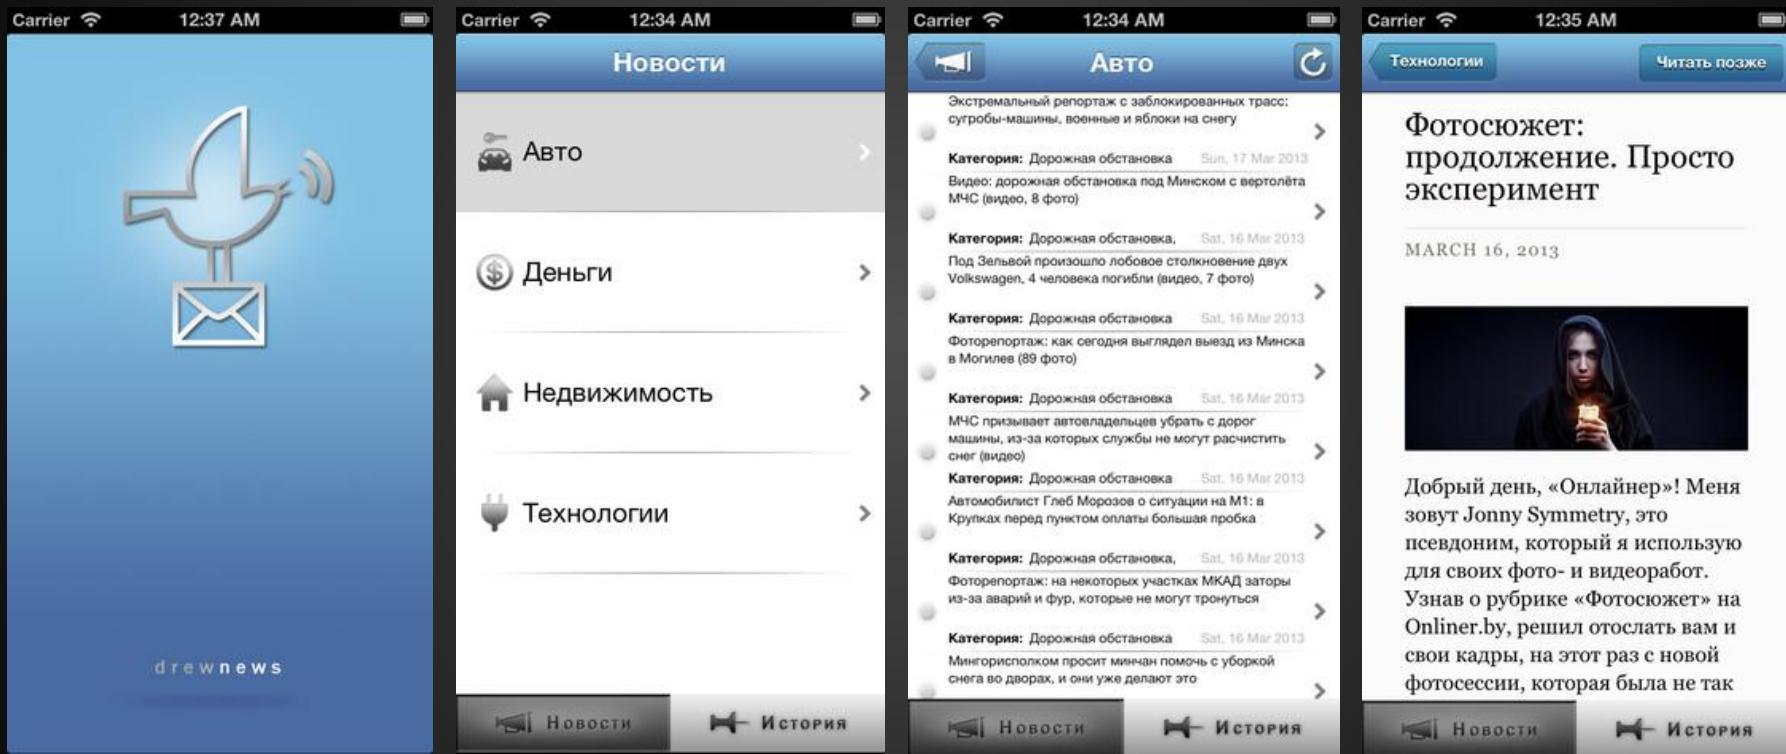

App Store: <https://itunes.apple.com/us/app/philly-pizza/id687196592?mt=8>

DrewNews

iPhone application

Single development

Application for reading news in online, offline modes.

Used technologies: CoreData, CFNetwork, Readability.

App Store: <https://itunes.apple.com/us/app/drewnews/id622267199?mt=8>

MyCreditCard

iPhone application

Single development

Application for providing and management credit card data.

The image displays four screenshots of the MyCreditCard iPhone application, arranged horizontally. Each screenshot shows a different screen of the app's user interface.
